TABLE OF CONTENTS

Introduction.

Hi! I'm Michael Sammons.

I'm a digital marketer and investment analyst with over 8 years of experience in performance marketing and strategic analysis.

I've managed six-figure paid media budgets, optimized campaigns for growth and efficiency, and built trading strategies that have delivered substantial portfolio gains. I have a passion for solving complex problems and driving measurable outcomes.

Experience & Impact

1. Digital Marketing Manager – Thryv

June 2017 - May 2022

I owned the entire post-sale marketing lifecycle for a B2B SaaS product, focusing on onboarding, engagement, and retention. I combined data analysis with creative testing to optimize campaigns continuously. By monitoring real-time metrics and customer behavior, I identified where to shift budgets and messaging to boost performance. This hands-on, iterative approach drove a 12% increase in lead conversions and improved click-through rates by 10% through A/B testing of ads and landing pages.

How I approached the work:

- Prioritized data-driven decisions balanced with creative experimentation
- Collaborated cross-functionally to align marketing with product goals
- Used advanced analytics tools to track and adjust campaigns quickly

2. Growth & Performance Analyst – MS Investments

May 2022 - Present

I apply strategic trading and data visualization techniques to identify market opportunities and optimize portfolio performance. By analyzing complex market trends and monitoring real-time data, I ensure quick strategy adjustments that improve returns while balancing risk. This role sharpens my analytical skills and strengthens my ability to manage resources effectively, skills I translate into marketing campaign optimization.

- LEADERSHIP THAT SUPPORTS INNOVATION, STRATEGIC THINKING, AND OWNERSHIP

In my personal life, running is more than just a hobby, it's a way I challenge myself physically and mentally. I'm driven by pushing past the boundaries of what I once thought was impossible, setting new goals and steadily working toward them.

In 2023, I ran 304 days, nearly every day of the year, showing my dedication and consistency.

This year, I ran 267 days so far, and as of June 24th, I've already hit 177 days. This ongoing commitment not only keeps me physically fit but also sharpens my discipline and resilience, qualities I carry into my professional life.

Running teaches me the value of perseverance, focus, and celebrating incremental progress, all of which help me stay motivated in any challenge I take on.

Thank you.
